

**RELEASE THE POTENTIAL!**

### Bio +Plus Asphalt Release

Power Might Bio +Plus Asphalt Release has a combination of renewable properties along with all-natural surfactants to provide a superior anti-stick barrier when used in asphalt truck beds, tools and other paving equipment. Bio +Plus works to give you a smooth release no matter what type of mix is being used. Bio +Plus not only prevents adhesion but also reduces reliance on fossil fuels. Experience the power of renewable resources with Bio +Plus Asphalt Release.

### Aqua +Plus Asphalt Release

Aqua +Plus Asphalt Release is formulated with water-based technology. Aqua +Plus provides superior adhesion prevention, ensuring easy separation of asphalt from trucks, tools, and equipment. Its environmentally friendly composition reduces the need for harsh chemicals, making it safe for both users and the environment. Say goodbye to stubborn residues and hello to smoother operations with Aqua +Plus Asphalt Release.

### Power Away Asphalt Remover

Power Away Asphalt Remover is a specialized cleaning product engineered to effectively strip asphalt and tar buildup from construction and paving equipment. Power Away is a high-strength cleaner designed to penetrate and dissolve asphalt deposits, enabling effortless cleaning of pavers, rollers, spreaders, and other machinery. It helps extend the lifespan of expensive equipment by preventing corrosive damage and maintaining operational efficiency.

### Drag Slat +Plus Asphalt Remover

Drag Slat +Plus is engineered for efficiency, ensuring pristine pavement and enhanced productivity. Designed to effortlessly remove debris and buildup from the asphalt drag slats, this innovative cleaner streamlines operations, saving both time and resources. Its high-quality formulation makes maintenance a breeze, ensuring the results you are looking for.
